Small Cap Value Equity

STRATEGY OVERVIEW

Historical studies show that a disciplined value strategy of selecting stocks at low valuation multiples holds the potential of better than average market performance over time.

The Schafer Cullen Small Cap Value Equity strategy focuses this low multiple discipline on stocks that generally have a market capitalization below \$5 billion. Small cap stocks have also demonstrated above average price performance over time, according to historical studies.

OBJECTIVE

Maximize Long Term
Capital Appreciation

In addition to market cap and valuation criteria, portfolio securities must also meet quality standards related to their return on capital, cash flow generation and balance sheet strength. Time horizon is critical. Schafer Cullen invests in companies that should benefit from specific catalysts that will drive their fundamental performance and stock price over 3-5 years.

An extensive research effort is crucial in analyzing small-cap companies, because they are relatively underfollowed. We find that meetings with company management are more productive with smaller companies. We also emphasize making calls away from Wall Street to outside industry experts, suppliers and customers to gain perspective.

Small Cap Value Equity

INVESTMENT DECISION PROCESS

INITIAL SCREEN:

Bottom-up approach to security selection which begins with a universe of 2,500 stocks (2,000 U.S. and 500 overseas) with a market capitalization below \$5 billion.

SCREEN FOR VALUE:

- Price to earnings ratio in the bottom 20%
- Above average long-term return on capital

FUNDAMENTAL RESEARCH:

- High and/or improving long-term return on capital profile
- Strong liquidity and balance sheet, including amount and maturity schedule of debt
- Dominant or leading position in industries with stable market shares
- Management commitment to enhancing shareholder value with strong Board governance
- Turnaround situations where potentially disposable or improvable segments can highlight value
- On-site meetings and discussions with management, industry experts, suppliers, customers and competitors

PORTFOLIO CONSTRUCTION:

- Diversification across approximately 25-35 stocks with equal weighting at cost
- No more than 5% invested in any one stock at cost
- Diversification across 15-20 industries
- No more than 15% invested in any one industry at cost
- Up to 30% invested in foreign securities (ADRs)
- Generally fully invested

SELL DISCIPLINE:

- Make room for other investment(s) with higher risk-adjusted return potential
- Valuation objective reached
- Earnings growth does not meet initial expectations
- Deteriorating fundamentals or negative change in business trend

¹Includes model program assets of \$9.0 billion as of 06/30/2020. SCCM provides models on the following SMA strategies: High Dividend, International High Dividend, Value Equity, and Global High Dividend.

Schafer Cullen Capital Management, Inc. (SCCM) is an independent investment advisor registered under the Investment Advisers Act of 1940. Cullen Capital Management, LLC (CCM) and Cullen Funds Trust (CFT) are affiliates of SCCM. The use of the term "firm" in describing total assets refers to SCCM and CCM only.

The primary benchmarks used for comparison purposes are the the Russell 2000 Value Index and the Russell 2500 Value Index. The Russell 2000 Value Index measures the performance of large-cap U.S. value stocks. The Russell 2500 Value Index measures the performance of small-cap US value stocks and is used for comparison purposes. Please refer to performance disclosure included with this presentation. Investors cannot invest directly in an index.

Past performance is no guarantee of future results. Market conditions can vary widely over time and can result in a loss of portfolio value. Investing in equity securities is speculative and involves risk. Small cap companies tend to be riskier than large cap companies. Returns are expressed in US dollars. Gross of fee performance is calculated gross of management fees and custodian fees and net of transaction costs. Net of fee performance is calculated net of actual management fees and transaction costs but gross of custodian fees. Individual account performance results will vary and will not match that of the composite or model. This variance depends on factors such as market conditions at the time of investment, and/or investment restrictions imposed by a client which may cause an account to either outperform or underperform the composite or model's performance.

It should not be assumed that recommendations made in the future will be as profitable or surpass the historical performance of the securities in the composite.

This presentation is not a solicitation or recommendation to buy or sell a particular security. A complete list of all recommendations made by the investment adviser within the immediately preceding period of not less than one year is available upon request. SCCM claims compliance with the Global Investment Performance Standards (GIPS®). SCCM has received a Firm-wide GIPS Verification for the period 1994-2019. To receive a complete list and description of SCCM's composites and/or a presentation that adheres to GIPS, contact Steve Mullooly at (212) 644-1800, smullooly@schafer-cullen.com, write Schafer Cullen Capital Management, 645 Fifth Avenue, Suite 1201, New York, New York 10022 or go to the website: www.schafer-cullen.com.

** This material is supplemental to GIPS compliance requirements and is provided for your information. This supplemental material complements the GIPS compliant composite presentation which is available upon request or provided with this brochure in one-on-one presentations. 20200727.60354*
