Global High Dividend ADR

STRATEGY OVERVIEW

In 1994, for investors more concerned with risk, Cullen Capital Management began managing portfolios with the Schafer Cullen High Dividend Value Equity strategy. The High Dividend strategy takes a more conservative approach by including a high yield component to our low P/E discipline.

In 2001, for investors seeking higher levels of current income and global equity exposure we began the SCCM Global High Dividend strategy. This strategy provides investors with a way to participate in the upside potential of global equities while at the same time generating current income and benefiting from greater than average downside protection, given dividend yield support.

Here, we select global stocks that combine the following:

- ▶ **LOW P/E DISCIPLINE**
- ▶ **HIGH DIVIDEND YIELDS**
- ▶ **STRONG DIVIDEND GROWTH**

We invest primarily in U.S. companies & International companies that trade on global exchanges with market capitalizations in excess of \$1 billion. While the global markets provide considerable upside potential, they are also exposed to additional political and currency risk. We believe the combination of low P/E, high dividend yield and dividend growth should mitigate this risk and reduce the overall volatility of the portfolio.

# Global High Dividend ADR

## INVESTMENT DECISION PROCESS

### INITIAL SCREEN:

Bottom up approach which begins with a universe of international stocks, with a market capitalization generally over \$1 billion and dividend yield greater than 3%.

### SCREEN FOR VALUE:

- Price to earnings ratio which is less than the market multiple
- Long term earnings growth prospects that are greater than the market multiple
- High-dividend yields & strong dividend growth rate potential

### FUNDAMENTAL RESEARCH:

- High standards with regard to cash flow, debt to capitalization, price to book, EV to EBITDA, return on equity, payout ratios and other measures of financial strength
- Leading market share, favorable business prospects, competitive advantages and other identifiable catalysts for price, EPS & DPS appreciation
- Meetings and discussions with management, industry analysts, suppliers and customers
- Tax efficient structures, high net dividend yields and attractive dividend policies
- Unique geographic, business and quantitative exposure
- Improving or stable political and currency risk

### PORTFOLIO CONSTRUCTION:

- Diversification across approximately 35-45 stocks
- No more than 5% invested in any one stock at cost
- No more than 20% invested in any one industry at cost
- Generally, no more than 30% invested in any one country at cost
- Generally, low cash balances

### SELL DISCIPLINE:

- Price to earnings multiple not justified by earnings growth rate
- Deteriorating fundamentals, negative business trend or change in investment thesis
- Change in dividend policy or significant decline in yield due to price appreciation
- Change in structure negatively impacting tax efficiency

<sup>1</sup>Includes model program assets of \$12.1 billion as of 6/30/2022. CCM provides models on the following SMA strategies: High Dividend, International High Dividend, Value Equity, and Global High Dividend.

Cullen Capital Management, LLC (CCM) is an independent investment advisor registered under the Investment Advisers Act of 1940 and is doing business as Schafer. Cullen Capital Management, Inc. (SCCM). Cullen Funds Trust (CFT), SCCM and CCM are affiliates. The use of the term "firm" in describing total assets refers to SCCM and CCM only.

**Past performance does not guarantee future results.** Investors should be aware of the following item when reviewing performance: (i) Prior to 2008, the composite benchmark was the MSCI EAFE. In 2008, the composite benchmark was changed to the S&P Global 1200. In 2020, the composite benchmark was changed to the MSCI ACWI Index as the investment adviser believes it more accurately comparative benchmark for the strategy. The MSCI ACWI Index is a market capitalization weighted index comprised of stocks from developed emerging markets and is designed to provide a broad measure of equity-market performance throughout the world.

Returns are expressed in US dollars. Gross of fee performance is calculated gross of management fees and custodian fees and net of transaction costs. Net of fee performance is calculated net of actual management fees and transaction costs but gross of custodian fees. Performance for the Global High Dividend Value Equity is a preliminary net of fees estimate. This estimate is a result of the non-standardized method for the accrual and settlement of international dividends in the numerous jurisdictions in which the portfolio invests. Additional information regarding policies for calculating and reporting returns is available upon request. Individual account performance will not match the composite and will depend upon various factors including market condition at the time of investment. Returns reflect the reinvestment of dividends and other earnings. It should not be assumed that recommendations made in the future will be as profitable or surpass the historical performance of the securities in the composite.

Portfolio holdings as of the date of publication are subject to change without notice. Not all participating accounts will invest in the same securities. The mention of specific securities is not a recommendation or solicitation to buy, sell or hold any particular security and should not be relied upon as investment advice. The holdings identified do not represent all of the securities purchased, sold or recommended for advisory clients and may change at any time at the discretion of CCM. It should not be assumed that any security transactions, holdings or sectors discussed were or will be profitable, or that future recommendations or decisions we make will be profitable or equal the investment performance discussed herein. This information should not be used as the primary basis for any investment decision nor should it be construed as advice to meet a particular investment need. **The strategy invests in foreign securities which involve greater volatility and political, economic and currency risks and differences in accounting. Market conditions can vary widely over time and can result in a loss of portfolio value. Investing in the stock market involves gains and losses and may not be suitable for all investors. Investors have the opportunity for losses as well as profits. Dividends are subject to change and are not guaranteed.**

The strategy depicted in this report has been managed in accordance with the investment objectives of the strategy as determined by the Adviser. The Adviser has selected benchmarks, which in their opinion closely resemble the style of the securities held in the composite or model portfolio of the strategy (e.g. large cap value, small cap value, international, etc.). The securities held in the composite or model are actively managed while the benchmark index is not. Investors should be aware that the Adviser makes no attempt to match the portfolio securities, or the security weightings of the benchmark. The composite or model's performance will be affected greater by the price movements of individual securities as the composite or model is more concentrated, generally less than 100 securities, while a comparative benchmark will generally have between 500 and 2,500 securities where individual security price movements have a lesser affect. An individual cannot invest directly in an index.

This presentation is not a solicitation or recommendation to buy or sell a particular security. A complete list of all recommendations made by the investment adviser within the immediately preceding period of not less than one year is available upon request. SCCM claims compliance with the Global Investment Performance Standards (GIPS®). SCCM has received a Firm-wide GIPS Verification for the period 1994-2019. To receive a complete list and description of SCCM's composites and/or a presentation, contact Schafer Cullen Operations at (212) 644-1800, operations@schafer-cullen.com, write Schafer Cullen Capital Management, 645 Fifth Avenue, Suite 1201, New York, New York 10022 or visit our website: www.schafer-cullen.com. 20220725.34599
